Portfolio

# **SKILLS**

#### **Technical Skills:**

- ROS, Python, C/C++
- AutoCAD, Fusion 360, LTspice
- · Circuit Design, Soldering

#### Hardware & Systems:

- Hardware Prototyping
- Microcontroller Programming
- Electrical Troubleshooting

# RELEVANT COURSEWORK

- Robotic Operating Systems
- Embedded Systems Design
- Microcontroller Systems
- Hardware Descriptive Languages
- Intro to Deep Neural Networks
- · Reinforcement Learning
- C Programming for Engineers
- Intro to Embedded Systems

## REFERENCES

Available upon request.

#### **PROFILE**

Innovative electrical and robotics engineer with hands-on experience in embedded systems, ROS-based automation, and real-time control systems. Skilled in microcontroller programming, hardware prototyping, and sensor integration. Known for fast adaptation to emerging technologies and a methodical, solutions-focused engineering approach.

### **EDUCATION**

#### **BS Electrical & Computer Engineering**

01/2021 - 06/2025

College of CSTEM | Eastern Washington University **GPA:** 3.3 / 4.0

#### **WORK EXPERIENCE**

#### ShredFast Inc.

08/2024 - 01/2025

Electrical Design Draftsman

- Designed and revised electrical schematics and diagrams using AutoCAD, ensuring compliance with industry standards and client specifications.
- Collaborated cross-functionally with production, QA, and sales teams to enhance workflows and support manufacturing.
- Delivered technical support and identified cost-saving improvements through innovative electrical drafting techniques.

#### ShredFast Inc.

12/2021 - 01/2025

Electrical Engineer Technician

- Conducted testing and troubleshooting using multimeters to resolve electrical system issues and ensure reliability.
- Assisted in designing schematics, interpreting manuals, and training technicians on equipment handling and safety practices.
- Evaluated engineering proposals and contributed to product development from concept through launch with an emphasis on safety and feasibility.

#### **Maple Valley Lacrosse**

Assistant Coach

01/2011 - 04/2012

- Developed practice plans, mentored athletes, and fostered a supportive, team-focused environment.
- Coordinated schedules and drills while assisting with game strategy, player evaluations, and skills development.
- Led training sessions emphasizing performance, technique, and alignment with broader team objectives.
